

## Regulation No. 1907/2006/EC - REACH

Munich, January 2011

Dear valued business partner,

To answer your questionnaires and handling further questions in advance, we will inform you within this document about our position in the supply chain and about our actions to fulfill the regulation mentioned above.

DATA MODUL AG is a manufacturer or importer of products and therefore in the meaning of REACH a so called „downstream user“. DATA MODUL AG is not obliged to register any substances or products.

In our own interest and our intention to provide a high safety in the supply of our products and in the products themselves, DATA MODUL AG is striving to get a commitment from our suppliers that all relevant substances and preparations are pre-registered and then registered.

We are sure, that all delivered products to our customers are conform to the detailed regulations within 1907/2006/EC-REACH. There will be no impact or problem in the supply of our products to our customers.

### **Obligation to disclose information on substances in articles:**

According to our present state of knowledge, there are no SVHC's in our products with more than 0.1 mass% mentioned in the candidate list (see website of the European Chemicals Agency (ECHA) <http://echa.europa.eu/>). If the candidate list will change and extend in future or for any other reason it would become necessary to provide such information according to Art.33 in future, we will try to fulfill as soon as possible.

Best regards,

DATA MODUL AG

Walter King  
CTO

Armin Scheuerer  
Director QM/QA, QMO
